

PACIFIC SERIES 1000

PACIFIC SERIES 1000

OceanView patio door

It's the perfect balance: performance, reliability, value, and longevity.

Every detail was considered in the design and manufacture of an elegant patio door with not only the spirit of remarkable craftsmanship, but true value. In its beauty. In its many new and unique features. In its ability to satisfy today's demanding customers and their need for versatility and adaptability. For those seeking a long-lasting product with excellent design features, and from OceanView to you, we proudly present the Pacific Series 1000 patio door.

Versatility

OceanView's advanced manufacturing processes ensure that the Pacific Series 1000 exceeds the highest industry standards for quality and durability. For energy savings, superior insulation.

Eliminates water and air between the frame and panels. Easy to clean and maintain. Durable and corrosion resistant. Many years of easy operation. Strong and aesthetic seal with exactly matched colors. A source of pride for us.

Performance

It's our first, middle, and last name. Some of the most skilled and experienced craftsmen make our products with overwhelming pride. They ensure that you receive... All multi-chamber vinyl design... Double and triple perimeter weatherstripping... Removable panel support... Premium sealant... Anodized aluminum tracks... Zinc-plated tandem dual wheels with sealed bearings... Extruded aluminum screen. Everyone at OceanView shares a single goal: to provide customers with not only the highest quality, longest-lasting, easy-to-use doors, but also high-value products available anywhere.
